Overall Activity Reports

Title of the event: Workshop on Entrepreneurship Skill, Attitude and Behaviour Development

Date of Event: 23/01/2023, Online Mode

Objective of the event:

The objective is to inculcate a sense of Entrepreneurship Skill, Attitude and Behaviour Development in the students. This exposure would impart necessary skills and understandings to develop rational and pragmatic attitude and behaviour in students. Students should understand that merely having technical skills is not sufficient in their progress but a correct combination of proper attitude and correct behaviour is equally crucial in taking them on the path of success.

This understanding has taken a blow in incessant technical and rapidly changing world. In order to make our students understand these indispensable and highly necessary factors, the workshop would help them a lot. An entrepreneur is not made only by the resources one has at the disposal but having a correct blend of attitude and behaviour is must and necessary.
