

Overseas Education: Awareness and opportunity

Expert lecture Report

9th Aug 2022:

An expert lecture on Overseas Education: Awareness and opportunity under IE Students chapter by the very renowned Ms. Prajkta Kale was conducted successfully for the second, third, and fourth-year students of mechanical engineering department under the Institutes of engineer's student's chapter. The guest lecture was an informative and productive session meant for the upgradation of knowledge of mechanical engineering students for their future career.

The expert lecture was conducted on August 8th in the mechanical department of government college of engineering Amravati, this lecture was organised by Institutes of engineers student's chapter. This lecture was scheduled at 12:00 hrs, all the students, teaching faculties were present for the event. Ms Prajkta Kale briefly introduced students to overseas education, its need and career opportunities, comparative studies between different countries, availing the scholarships etc. She guided and encouraged students for higher studies in abroad. She also shared his personal experiences in the field, challenges she faced and a guided student very well.

This event was not possible without guidance of the faculty in-charge Prof. N. D. Solanke assistant professor in mechanical department along with IOE convenors, co-convenors and members. This session was conducted with a very profound enthusiasm. The students, teaching and non-teaching faculty were working continuously behind the stage, to make this event possible.
