

GCOE Amravati - Placement Report of FY 14 & FY 13 Batches

Amid the growing signs of economic slowdown, the placement season for the **2012-13** Batch concluded with a total of **(348)** offers being made to the graduating B Tech students, reflecting the steady and stable performance delivered by the students in the challenging environment. This represents a **percentage of 84.31 students** getting confirm offers from a total of **(408)** campus eligible students from the **2013** Batch.

A total of **(36)** blue-chip national and multi-national company has put their faith in the capabilities of our bright students. The **maximum compensation package of Rs. 10.00 lakhs** per annum was offered by BPCL, whereas the **average of Rs. 3.37 lakhs per annum** compensation package was offered by the recruiters to our students. The **Median** compensation package offered to the campus selected students during 2012-13 was **Rs. 3.21 lakhs per annum**.

(* indicates that the figures mentioned are provisional since the placement season is in progress)

The placement season for the **2013-14** Batch started in the gloomy scenario of slow demand from major industry sectors and has experienced a drop in the number of companies visited and also with regards to the number of offers made to the students, with a total of **(340)** offers being made to the graduating B Tech students, reflecting the steady and stable performance delivered by the students in the challenging environment. This represents a **80.72% students** getting confirm offers from a total of **(415)** campus eligible students from the **FY 14** Batch.

A total of **(38)** blue-chip national and multi-national company has put their faith in the capabilities of our bright students. The **maximum compensation package of Rs. 6.25 lakhs** per annum was offered by NVidia Graphics, whereas the **average of Rs. 3.45 lakhs per annum** compensation package was offered by the recruiters to our students. The **Median**

compensation package offered to the campus selected students during 2013-14 was **Rs. 3.37 lakhs per annum.**

Placements 2012 to 2014 Batches: Snapshot

Among the key recruiters were Bharat Petroleum Corporation Limited (BPCL), Cognizant, John Deere, GE (I), Wipro, FIAT, Persistent Systems, nVidia, Fluor Daniel (I), L&T Construction, Koso India, Thermax, Hella Electronics (I), Reliance Retail, Torrent Power, Hasan Juma Backer LLC, Oman, Shapoorji Pallonji, Tata Technologies *etc.*

(* indicates that the figures mentioned are provisional since the placement season is in progress)

The drop in the number of students placed during 2013-14 reflects the overall weakness in employment growth particularly in manufacturing, automobile, power and infrastructure sector, although there is positive growth of late, in the demand from Software/Services sector due to the stabilizing effect of global economy. The number of Core sector companies which visited for campus recruitment for the year 2013-14 dropped by nearly (45%) from that of 2012-13, while an increase of (30%) was observed in the number of Software/IT sector companies.

No of Students Offered - Disciplinewise

Profile of Recruiters

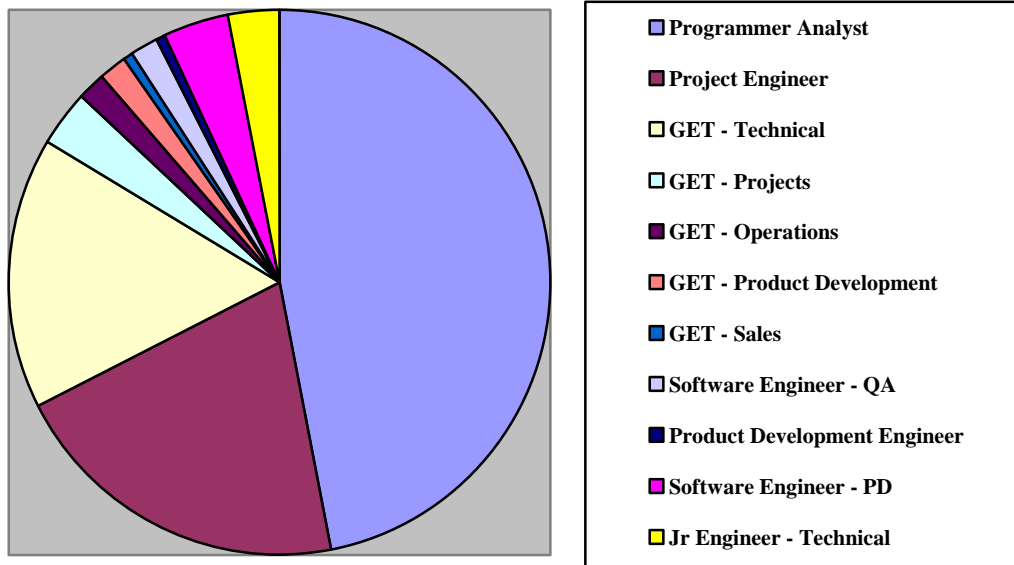

This year, the institute added a good number of reputed industrial houses to the list of esteemed recruiters. These were Reliance Retail, IBM Global Services, Triveni Turbines, Yodlee Infotech, Garware Wall Ropes, L&T Infotech, Koso India, Josh Technologies, Tega Industries and Quinnox. The *numero uno* Software services company of India, Tata Consultancy Services returned to the campus through the mode of off-campus drive in March, 2014.

The maximum number of placement offers was made by Cognizant (**119**) followed by Wipro Technologies (**68**), Persistent Systems (**12**), Fluor Daniel (**11**) and HJB, Oman (**10**).

Among the major recruiters who have visited consistently for the last Three Placement seasons are Cognizant, Wipro Technologies, Persistent Systems, Shapoorji Pallonji, nVidia Graphics and Fluor Daniel (India) Pvt Ltd, Gurgaon.

The job profiles offered to the students selected in Core Engineering companies were Graduate Engineer Trainee (Technical, Product Development, Quality, Supply Chain Management and Sales) and Management Trainee, while for the students placed in Software/IT sector the profile offered were those of Software Engineer, Programmer Analyst Trainee, Software Developer and Programmer, Software QA Engineer.

Sectoral Distribution of Job Profiles of Campus Selected Students (2013-14)

The job profiles offered to the selected students was unchanged from the previous year, reflecting rigid approach by the corporate in searching new areas of operation due to sluggish investment growth.

Sector-wise Summary 2014 Batch

For the current year, the profile of the recruiters was a mixed affair with a wide range of Indian and multi-national companies operating in variety of spaces visiting the campus.

Profile of Recruiters during 2012 – 2013

These include those from Engineering Services (John Deere), Manufacturing (Voltas), EPC & Infrastructure (Fluor Daniel), Automobiles (FIAT), Construction (Shapoorji Pallonji), Infrastructure Development (L&T Construction), Automotive Electronics (Hella Electronics), Retail (Reliance Retail), Power (Torrent), IT Services and Business Consulting (Cognizant, IBM and Wipro), Software Product Development (Persistent Systems and Office Box Software), GPU & Visual Computing Technology (nVIDIA), Energy & Environment Sectors (GE India).

(indicates that the figures mentioned are provisional since the placement season is in progress)*

Reporting of Placement of PG Students (2013 Batch)

The placement drives for M Tech students of the institute are normally conducted along-with those of UG students, since it is more plausible to use the synergy. The number of PG students who are placed through the campus is not significant for the reasons such as (a) few number of eligible students available according to the criteria applied by recruiters (b) mediocre performance of PG students in various elimination stages of selection (c) preference of majority of PG students to opt for career in teaching profession *etc.*

For the **2014** Batch, the total number of M Tech students who were selected through the mode of campus recruitment stand at **(09)** out of total eligible students of **(42)**, which represents a percentage of **(21.42%)** PG students placed. The maximum compensation package offered was Rs. **3.5** lakhs per annum.

The institute has taken due efforts to provide them counselling and specialized training to improve their aptitude and soft skills.

Guidance for 2014 and 2015 Batch Placements

The placements for the 2013-14 Batch passing-out students is *expected to be subdued* but decent owing to the adverse effect of continued slowdown across all business sectors. The effect will be more pronounced for the manufacturing and infrastructure companies.

The silver-line is the expected pick-up in the number of offers by Software/IT companies due to positive growth in the software exports and increase in the demand for professional with skill-set because of more number of new deals being signed by sectoral companies.

The IIP index for the months of January-February 2014 has indicated contraction in the Core Engineering and Manufacturing sector, at - 2%. This translates into lower than expected

number of fresher's required by these companies thus impacting adversely the campus placement offers especially from the graduate students from core disciplines.

For the 2015 Batch, it will be a balancing act between the expected turnaround in the state of the economy and rising concerns about continued effects of slowdown in global economy, particularly US and Europe. The contraction in manufacturing sector is expected to taper down resulting in positive traction as far as new investments and manpower requirement for the sector. The Software/IT sector is expected to post spectacular growth with consequent increase in the numbers which IT majors would recruit from campuses, but there is some concern with regards to the immediate growth in revenue for Q4 of 2013-14, as expressed by Infosys and TCS. Overall, it should be a decent year for campuses with a Big Smile on the faces of Fresher's passing-out and a relived placement officer!
