

Vehicle testing expert lecture report

12th Nov 2022:

An expert lecture on vehicle testing under IE Students Chapter by the very renowned Dr. A. S. Dhoble was conducted successfully for the second- and third-year students of mechanical engineering department under the Institutes of engineer's student's chapter. The guest lecture was an informative and productive session meant for the upgradation of knowledge of mechanical engineering students for their future career.

The expert lecture was conducted on November 11th in the mechanical department of government college of engineering Amravati, this lecture was organised by Institutes of engineer's student's chapter. This lecture was scheduled at 13:00 hrs, all the students, teaching faculties were present for the event. Dr. A. S. Dhoble holding an intellect in mechanical engineering, who is Professor in VNIT Nagpur, was the expert faculty for the session. He gave many valuable knowledge and information to students. The main topic of the session was vehicle testing in India, Sir briefly introduced the students with vehicle testing its parameters, norms, rules and regulation, need of vehicle testing, comparative study between different countries etc. He also shared his personal experiences in the field, challenges he faced and a guided student very well.

This event was not possible without guidance of the faculty in-charge Prof. N. D. Solanke assistant professor in mechanical department along with IOE convenors, co-convenors and members. This session was conducted with a very profound enthusiasm. The students, teaching and non-teaching faculty were working continuously behind the stage, to make this event possible.
